NXP in the United States

Built on a 50-year legacy with Motorola and Philips, NXP has design, research and development, manufacturing and sales operations in the United States.

We're Hiring!

Fab Operators in Chandler, AZ and Austin, TX USA.

[Apply now >](#)

Know More About NXP in the United States

NXP owns and operates three wafer fabrication facilities in the US, two of which are in Austin, Texas and Chandler, Arizona. The representative products of these fabs include microcontrollers (MCUs) and microprocessors (MPUs), power management devices, RF transceivers, amplifiers and sensors.

During an unprecedented winter storm, our Austin, Texas facilities lost power, water and gas. Their necessary shutdown and the process to restart is a story about our values and our people.

[Learn about what it takes to restart a fab >](#)
